

Gamified Assessment Blueprint (Module 1)

Topic	Assessment Game Name	Mechanic & Interaction
1. What is Cybersecurity?	"Security Guard: Pass or Block"	Screen par alag alag items swipe/drag karni hain (e.g., Unlocked Laptop, Encrypted File, Written Password on Sticky Note). Employee ko faisla karna hai ke isey Secure Zone mein rakhna hai ya Risk Area mein. (Puzzle Type Interaction)
2. Why Organizations Are Targeted	"Hacker's Target Board"	Ek fictional hacker avatar screen par aata hai. Employee ke samne 4 corporate assets hotay hain (e.g., Employee Records, Secret Strategy, Small Vendor Account). Question: "<i>Hacker sab se pehle kis par nazar rakhega?</i>" Sahi option select karne par target shield ho jata hai. Interface Design: <i>(Animation hogi hacking like screen k bottom center se hacker appear hoga front view k sath laptop bhi hoga uske pas or uski image k upar assets curve shape me appear hoge)</i>
3. Common Cyber Threats	"Threat Spotter: Catch the Impostor"	Employee ko 3 digital notifications/messages dikhai dete hain (ek Phishing Email, ek Ransomware Pop-up, ek Password Reset Request). Unhe Red Flag Scanner drag karke malicious element par drop karna hai. Interface Design: <i>(Animation hogi hacking like screen k bottom center se hacker appear hoga front view k sath laptop bhi hoga uske pas screen ki right side me ek screen hogi jisme animation chale gi hacking wali left side me scenario aye ga according to video context option diye jaye ge)</i>

4. The Role of Employees	"Build the Human Firewall"	Screen par ek network wall bani hoti hai jismein 3 missing bricks hoti hain. Har brick par ek employee behavior likha hota hai (e.g., "Reported Suspicious Email", "Clicked Unknown Link"). Sahi behavioral bricks ko choose karke wall complete karni hoti hai.
5. Human Error & Social Engineering	"Social Engineering Trap Detector"	Ek chat simulator ya audio clip play hoti hai jismein ek 'IT Support' bane hue banda Urgent Password maang raha hota hai. Employee ke paas choices hoti hain: "Give Password" , "Hang Up & Verify" , ya "Ignore" . Reaction time aur correctness par score milta hai.
6. Confidentiality, Integrity & Availability	"The CIA Triad Match-Up"	3 Locking Safes (Confidentiality, Integrity, Availability) hotay hain aur 3 real-world scenarios. Employee ko correct scenario ko uski relevant CIA Category Safe ke andar drag & drop karna hota hai.
7. Everyday Corporate Life	"Desk Audit Blitz"	Ek 3D/2D office desk ka interactive scene dikhaya jata hai jismein 5 security mistakes hoti hain (Unlocked PC, Sticky note password, Guest badge on chair, Sensitive printout). Employee ko 30 seconds timer ke andar un 5 ghaltiyon par tap/click karke clean karna hota hai.
